

P-THERM® Thermal Management Materials

POLYMER
SCIENCE, INC.

The Polymer Science Advantage

Manufactured in the USA

Competitive Pricing

Customization Options

Outstanding Technical Support

P-THERM® Gap Fillers

- Silicone, Urethane, and Acrylic
- Pads, Dispensable, and Putty
- Supplied on rolls for maximum material yield
- Dispensables have low bond lines, wet out irregular surfaces
- Custom colors, thickness, and width
- Stocked materials for same day shipping

P-THERM® Phase Change Materials

- Tacky Non-Silicone polymer blend
- Performs like a grease, handles like a thermal pad
- Changes phase at 55 C
- Supplied on rolls for maximum material yield
- Custom colors, thicknesses, and width

P-THERM® Heat Spreaders

- Aluminum Foil, Copper Foil, Polyester
- Laminated with conductive acrylic PSA
- Ultra- thin profiles
- Supplied on rolls for maximum material yield

P-THERM® Electronic Control Interface Materials

- Electronically insulating
- Silicone and Non-Silicone materials
- Adhesive and Non-Adhesive
- High Dielectric Breakdown Strength
- Supplied on rolls for maximum material yield
- Customization options available

P-THERM® Tapes and Adhesives

- Adhesives based on acrylics and other formulations
- High bond strength
- Single and Double-face Configurations
- Foil support available
- Supplied on rolls for maximum material yield

About Polymer Science

Polymer Science is a global manufacturer of advanced materials for medical and electronics applications. Our custom web coating techniques allow us to provide customers with unique and innovative material solutions. With facilities in the United States, Asia, and Europe, we are positioned to provide you with superior customer service, quality, and support on your next project.
